

SUN LINKS INDIA PVT LTD

SODIUM CYANIDE

Chemical Formula: NaCN

At Sunlinks, we bring the premium quality products manufactured by the state-of-the-art technologies. Sodium Cyanide is manufactured by technology of M/s. IPSC GmbH, Germany.

Advantages:

- Very high purity of minimum 98% is guaranteed by SUNLINKS.
- QCD is equipped with most modern instruments to analyze special test on request.

Specifications:

| Sr | Characteristic | Specification | | |
|----|------------------|---------------|-------|-----|
| 1 | Sodium Cyanide | % | 98.00 | min |
| 2 | Sodium Hydroxide | % | 1.00 | max |
| 3 | Sodium Carbonate | % | 1.00 | max |
| 4 | Sodium Formate | % | 1.00 | max |
| 5 | Moisture | % | 1.00 | max |

Applications:

- Ore extraction Silver & Goli
- Metal and Mining industries
- Electroplating
- Metal cleaning
- Dyes industries
- Agrochemicals
- Pharmaceutical industries
- Chelating and Sequestering agents
- Case hardening of steel

Production Capacity:

- 9 Tonnes/day at Vadodara Complex

Exclusive Features:

- Pure white, odourless, dry solid powder / granules / compacted in tablet form
- Highly poisonous
- Soluble in water
- Stable at fairly high temperature in complete absence of air, CO₂ and moisture

Packaging:

50 kg MS Drums with plastic liner inside

Product List:

Dimethyl Sulphate | Sulphuric Acid 70 % | Aluminum Sulphate (Non Ferric Alum) | Oleum 23% / 65% | Battery Grade Sulphuric Acid | Sulphur Trioxide (SO₃) | Chloro Sulphonic Acid | Sulfamic Acid

Address: 1307-09, 13th Floor, Sun Central Place, Nr. Bopal Crossroad, SP Ring Road, Ambli, Ahmedabad 380058, Gujarat, India
